

FEBRUARY 27, 2024

NEW SYSTEM CONTROLLER BOARD AND BEZEL LABEL AVAILABLE

- System Controller operates 2 – 8 units on 1 or 2 independent systems, or operates as a water monitor only
- Monochrome Graphics Display with blue backlight on front panel for time of day, day of week, days until next regeneration, current system flow rate, and total system volume used (Totalizer)
- May be used with Clack WS1, WS1.25, WS1.5, or WS2 control valves
- Two input connections that can either be used for meters or other auxiliary inputs
- On-board Ethernet connection for remote, real-time monitoring of system performance
- Supports Modbus TCP/IP communications
- System diagnostic and programming information spreadsheet may be uploaded to a standard USB drive
- Two fused Single Pole Double Throw (SPDT) relay outputs
- Single demand-based meter output signal
- Coin cell lithium battery backup for time of day with easy access cover
- Front panel LED status indicators for Online, Standby, Regeneration, and Lead Unit Position
- Language options include: English, Spanish, French, German, Italian, Dutch, and Polish
- Part number is V3870-05BRDLBL, use your valve discount multiplier to determine your cost
